To Whom It May Concern:

It is my pleasure to write this letter of recommendation for Krische Construction. As an associate and project manager for Coover-Clark and Associates, I have had extensive opportunity over the past year to work with Krische on the \$1.5 million Guaranty Bank at Arvada Ridge.

Barry LaSalle, project manager, and Scott Smith, superintendent, with Krische, provided outstanding leadership roles in facilitating the construction of this project. The complexity and detail of the design on this building was met with outstanding results throughout the entire construction process. Krische was able to see our vision and construct it.

Krische put forth every effort to keep the project within budget and on schedule while maintain high levels of quality control. When weather related delays hit our project, as they seem to do in Colorado, Krische had a clear path in place to help bring the project back on schedule. The level of professionalism and thoughtfulness were extremely helpful, to both the owner of this project and myself.

At times where the owner had changes, Krische demonstrated an exceptional ability to facilitate these changes and implement them in away that was budget conscious and schedule friendly. In addition they applied this same principals to unforeseen issues arising through this construction process.

I believe the ultimate outcome of this project and building is one that Guaranty Bank, Krische Construction and Coover-Clark are very proud of and recommend Krische Construction enthusiastically and without reservation. Should you have any question or need further information, please do not hesitate to call me at the number listed above.

Sincerely,

John Krieg

Associate
