Dear Joe:

On behalf of the congregation of Berthoud UMC, I want to thank you for the work you and Krische put into our remodeling project. It can be difficult to work with a church, since everything has to be done by committee, and it is not always clear who can answer questions and give direction. This was a major undertaking for our church and many were afraid of doing the work. You and the site supervisor, Scott Smith, helped remove many of those fears. Everyone on the crew was pleasant to work with, and gracious to parishioners who wondered constantly through the project.

Working on this 1957 building brought some unique challenges and learning opportunities. We felt that these were handled in a very professional manner. We were pleased that both the timeline and the budget were adhered to. Even with some 'surprises' in the demolition phase we were back in our beautiful new space within the 120 days promised.

The remodel is bringing joy to all who enter this place. Our building has become an asset to ministry instead of the hindrance it had been. We know it was not easy to retrofit a fifty year old building, and are most impressed with the results.

We hope to see continued growth in our congregation and look forward to the day we when we can call Krische again to implement Phase II and III of our project. We hope that day is soon, and will enjoy working with you all again.

Blessings,
