To Whom It May Concern:

I am very impressed by Krische Construction and look forward to working with them again in the future.

They expertly managed our Varsity Room Renovation project that was not 100% designed, had a short construction window and limited budget. This is not a recipe for success, but with Krische's leadership the project surpassed all expectations. They are professionals in every sense of the word. They identified the critical path items, dealt with change orders, overcame the "surprises" that construction uncovers and completed the project on-time with a high level of quality.

The Varsity Room that was a sore subject and is now considered one of the best rooms on Campus! I attribute the success of this project to Krische Construction's engagement with the University's construction Team that allowed this project flow seamlessly. The University of Colorado is not the easiest environment in which to operate, but Krische was an example of how to manage a project effectively in this atmosphere.

I highly recommend Krische Construction as a contractor of choice and I would welcome any calls or questions you may have. I do believe you cannot do better.

Sincerely,

A handwritten signature in black ink, appearing to read "Tom McGann", with a long horizontal flourish extending to the left.

Tom McGann
