Barry La Salle  
Krische Construction, Inc.  
1117 Kimbark  
Longmont, CO 80502

Dear: Mr. LaSalle

The TREX Station Enhancements project constructed by Krische Construction, Inc. at Lincoln, Arapahoe, and Orchard LRT station for RTD had many challenges because of construction access and the various geographical locations of the work. Krische Construction, Inc. was able to complete all work within the contract specifications without any additional costs to the project with employees who were professional and courteous.

I want to thank Krische Construction, Inc. for their efforts in helping RTD finish a successful project.

Sincerely,

Chris Hinton, P.E.  
Engineer IV
